

Elsafe's dynamic QIKFIT power series. The stylish slim and sleek QIKFIT has been designed to complement everywhere from the basic office fitout to the modern office environment.

The QIKFIT series fits into industry standard cut outs and all of the sockets are auto-switched for a clean look and efficient operation. The multi directional sockets on the 4 gang QIKFIT allow for an array of chargers and plug packs to be used simultaneously.

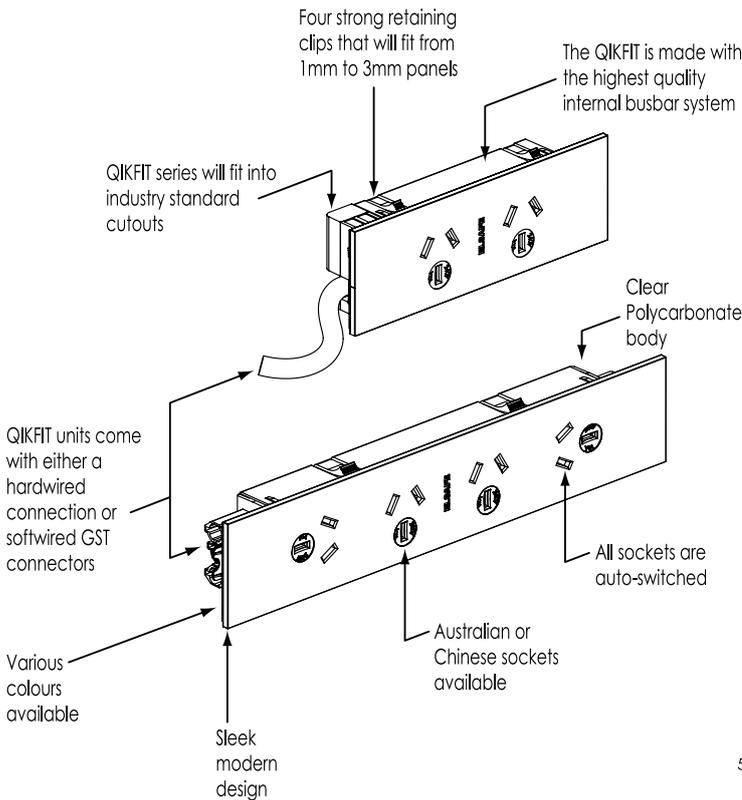

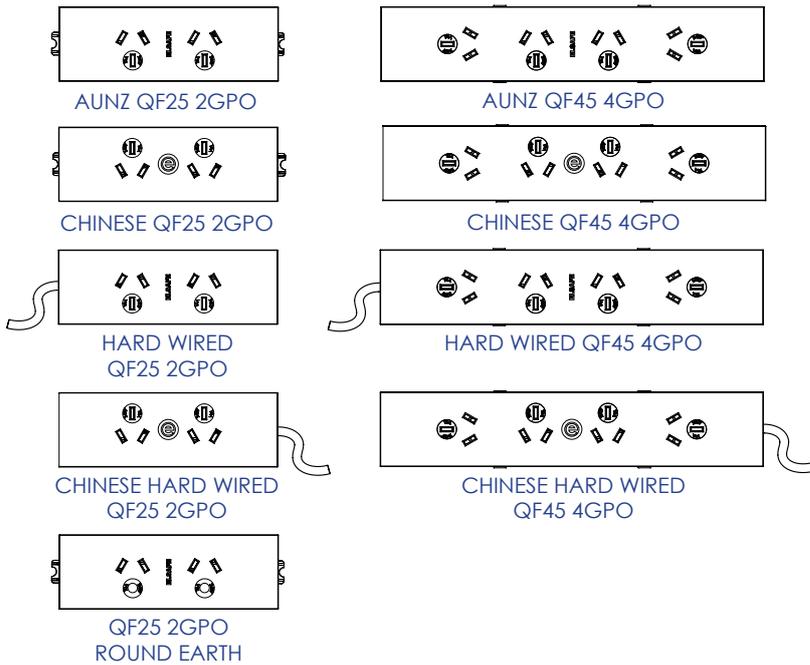

The QIKFIT series comes with either soft wired installation couplers, allowing for quick and easy change and CHURN to suit any office environment or a hard wired option which incorporates a cable with the Elsafe J-Coupler on the end. The J-Coupler allows for power to pass through the J-Coupler and feed the QIKFIT.

Many of the Elsafe rails, floor boxes and ceiling boxes have been designed to accommodate the QIKFIT range of products, allowing for the same stylish and complementary look to flow through the entire installation.

Common Modular Components

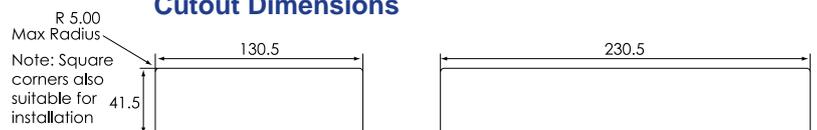

Features

- To comply with the legal dimensional differences between the AUNZ and Chinese sockets, Elsafe has designed country specific QIKFITS for both the Australia/New Zealand and the Chinese markets.
- Many of the Elsafe rails, floor boxes and ceiling boxes have been designed to accommodate the QIKFIT range of products allowing for the same complimentary look to flow through the entire office environment (please also refer to the QIKFIT data and AV range of products)
- All of the sockets are rated at 10A 250V
- 20A GST connectors suit Wieland GST cabling which is low profile and re-wirable.
- The soft wired QIKFIT comes with GST male and female connectors allowing for multiple QIKFITS to be daisy chained.
- The hardwired QIKFIT is supplied with a sturdy 20A cable with an Elsafe J-Coupler, allowing for power to pass through the J-Coupler and feed the QIKFIT.
- The four gang QIKFIT incorporates multi directional sockets to allow for an array of chargers and plug packs
- The QIKFIT range will fit industry standard cut outs.
- The QIKFIT two gang can accommodate round earth for U.P.S., dedicated power (with red faceplate)
- The QIKFIT can be ordered in four colours (black, white, grey, red) to suit your specific needs.
